## ACH / EFT Payment Solutions

Waste Connections offers ACH (Automated Clearing House) as a payment option to our vendors in the USA and EFT (Electronic Funds Transfer) to our vendors in Canada. Please see the below for details on the ACH/EFT programs.

- Waste Connections currently only provides ACH Credit (money sent to the vendors account).
- We currently do not allow ACH Debit (money withdrawn directly from our account).
- Upon payment, an email notification of payment will be sent to the email provided on the
- ACH/EFT enrollment form. This email will contain the total amount of the payment plus
- individual invoice detail for the items making up the payment.
- Funds will be available to the recipient 1 to 2 days after the payment notification is sent.

**The benefits of accepting an ACH/EFT payment as opposed to a check payment are:**

- No more paper invoices, paper checks, and trips to the bank.
- ACH/EFT payments are more secure than checks. ACH/EFT payments cut out the intermediaries
- and reduce the risk of fraud and tampering.
- Faster funding with ACH/EFT payments. No longer have to wait for a check to arrive through the
- mail, clear the bank or get lost in the mail.
- ACH/EFT payments cut down on human entry errors.

**To enroll in the ACH or EFT program please contact the Waste Connections AP Department at:**
